AWARENESS,
NETWORKING & TRAINING (SIDHANT)**

ANNUAL REPORT

2021-22

Background

Developmental growth has in the past brought in its trail urbanization, distortions in resource utilization and distribution aggravating income and wealth disparities, besides ecological consequences. Experiences of development process as hitherto evidence has revealed in sharp focus the need for corrective steps to retard social distress and social injustice. Any development program which does not implicitly reorganized the above limitations would only further aggravate the situation that is already causing concern in the most developing societies.

Mission

“To work towards sustainable development of the poor and disadvantaged section of the society”

Vision

“Equitable and sustainable development of population through innovative approach, participatory action”

Awareness program on HIV/AIDS, TB & STI

SIDHANT organized a one day awareness session on dated 19th April'2021 with Truckers in Bamni Khera, Hodal. Comprehensive Health and Awareness Program focused on HIV/AIDS, Tuberculosis (TB), and Sexually Transmitted Infections (STI's). This initiative aims to educate and empower truckers to prevent and manage these health challenges effectively.

Program Objectives:

Raise Awareness: The first step towards combating these diseases is understanding them. We provided information on HIV/AIDS, TB, STI's including their transmission, symptoms, prevention, and treatment options.

Promotion of Testing: Regular testing is crucial for early detection and timely intervention. We offered accessible and confidential testing services for HIV, TB, and common STI's.

Reduction of Stigma: Stigma can prevent individuals from seeking help. Awareness to reduce stigma through community discussions, educational workshops, and testimonials from survivors.

Safe Practices: Empowered individuals with knowledge about safe practices, including condom use, hygiene, and harm reduction strategies, to minimize the risk of infection.

Remember, knowledge is power, and by spreading awareness and taking preventive measures, we can significantly reduce the impact of HIV/AIDS, TB, STI's in our community.
